

ENROLLMENT FORM

The Association of Bay Area Governments (ABAG) Energy Watch is a joint Program of ABAG and Pacific Gas & Electric Company (PG&E). The Program provides technical assistance and information services to assist cities, counties, and special districts with implementation of energy efficiency projects in public facilities and development of energy efficiency policies within their communities. Local government entities that pay Public Purpose Program charges (Public Goods Charge) and are PG&E customers are eligible to participate in ABAG Energy Watch on a first-come, first-served basis until the Program ends or allocated funding is depleted. These services (including applicable incentives) are provided free of charge to qualifying local government entities. The amount of funding allocated to each participant may limit the time period and/or services provided under the ABAG Energy Watch Program.

In order to participate in ABAG Energy Watch, _____ (**Local Government**) agrees to the following:

1. Designate a primary contact to facilitate the Local Government participation in ABAG Energy Watch and commit sufficient staff time to support the successful delivery of Program services.
2. Provide access to facilities and information as necessary to enable ABAG Energy Watch to successfully deliver Program services.
3. Authorize the release of PG&E billing and usage data to ABAG Energy Watch necessary to complete a facility energy assessment, and provide facility area measurements as needed.
4. Release, hold harmless, and indemnify PG&E from any claims, demands, damages or expenses resulting from the release to and use by ABAG Energy Watch of the PG&E billing and usage data.
5. Consider implementing the recommended energy savings strategies that are economically and operationally feasible, and cooperate with ABAG Energy Watch efforts as needed to verify facility energy savings, policies, and projects that result from Program participation.
6. Consider participating in any workshops conducted by ABAG Energy Watch that are relevant to Local Government energy savings goals.
7. Local Government also agrees that it has not received and will not apply for or receive duplicative services from another utility, state, or local program.

This Enrollment Form shall be effective as of the date it is signed by both parties. These conditions shall remain in effect until ABAG Energy Watch services are fully delivered or until December 31, 2008, unless otherwise terminated. My signature below indicates that I agree to the above conditions, and I am authorized to sign this Form on behalf of Local Government.

Local Government: _____

Local Government Representative Name: _____

Title: _____

Address: _____

Phone: _____

Signature: _____ **Date:** _____

ABAG Energy Watch Representative: _____

Signature: _____ **Date:** _____

California consumers are not obligated to purchase any full fee service or other service not funded by this Program. This Program is funded by California energy utility ratepayers under the auspices of the California Public Utilities Commission ("CPUC").
